

PAYMENT IN LIEU OF TRANSPORTATION

The Board recognized that there are times that certain local conditions make it impossible for buses to pick up or deliver students within the allowable distance of their homes, and hence has established the practice of paying families to drive their children to school or to meet the bus at an agreed upon location. These parents will receive a payment in lieu of transportation calculated as follows:

The lesser of:

- a) a daily rate, as set by resolution of the Board, per child based on actual attendance.
- b) the actual mileage driven multiplied by the rate per kilometre in effect establish for travel on Division Business.
