

EMPLOYEE WIRELESS COMMUNICATION

Beautiful Plains School Division promotes the importance of communication. The Division recognizes that communication devices are useful in helping some employees do their job efficiently, increase their accessibility, and help them address issues in a timely fashion.

Under the policy, the term "Wireless Communication Device" refers to cell phones, multi-use devices (Blackberries, etc) and similar telecommunication devices.

The Superintendent or Secretary Treasurer may approve a "Wireless Device" for an employee that:

- engages in regular work related travel or
- is regularly out of the office on Divisional business
- is expected to be on call for essential services

Divisional employees who are approved to carry wireless devices will be provided with detailed billing and are required to pay any personal long distance and data charges.

Approved October 19, 2010
