

STUDENT SERVICES – Early Identification

Beautiful Plains School Division will identify students with exceptional learning needs as early as possible in their education. Required information for planning and implementing a student's educational programming upon school entry will be gathered from:

- Transition protocols on Guidelines for Early Childhood Transitions to School, Guidelines for School Registration for Students in Care
- Information from parents, teachers, clinicians, outside agencies, previous schools, pre-school service providers at spring transition meetings
- Pre-School and Kindergarten Screening
- Information gathered from multiagency Child Development Team meetings

In the Pre-School and Kindergarten Screening Process, the school team will identify students requiring a referral for a specialized assessment.
