

GRADUATION REQUIREMENTS

The Board accepts that Manitoba Education and Training has established 30 credits (29 credits for the 2008/09 school year) as the requirement for graduation from the four year High School Program. Students who have completed the provincial requirements shall be awarded the Provincial Graduation Diploma and have the option of participation in graduation ceremonies.

The Board also believes students should be encouraged to achieve at a high level both in academics and extra curricular activities. Therefore the Division will award a Beautiful Plains graduation diploma for those students who earn at least two credits that are in addition to the provincial graduation credit requirements. The two additional credits may be academic or may be granted by the school for participation in school activities. Each high school will determine the criteria for granting Beautiful Plains School Division Extra Curricular Activities Credits.
